

PCCW Solutions expands IT outsourcing and data center business in Malaysia

PCCW (SEHK: 0008) – HONG KONG, September 28, 2020 – PCCW Solutions, the IT services flagship of PCCW Limited, today announces new expansion plans in Malaysia, including the opening of a delivery center in Kuala Lumpur and a newly acquired data center in Cyberjaya, Selangor, strengthening its commitment to delivering a full range of IT services to clients in Southeast Asia.

PCCW Solutions established its footprint in Malaysia last September to provide IT outsourcing and managed services to support clients in Southeast Asia. The new delivery center enables PCCW Solutions to leverage local technical and business capabilities, while providing multi-country access to help clients accelerate digital transformation.

In addition, PCCW Solutions has completed the acquisition of MyTelehaus Sdn. Bhd. and its data center in Cyberjaya, located at the heart of the Multimedia Super Corridor (also known as MSC Malaysia). The data center has connections to extensive telecom, Internet and fiber service providers, enabling it to serve as a connectivity hub for local enterprises and global hyperscale providers. Multimedia Super Corridor is a Malaysian government-designated zone to accelerate the growth of the country's digital economy.

Mr. Ramez Younan, Managing Director of PCCW Solutions, said, “We are delighted to expand our operations in Malaysia, providing world-class IT and data center services as well as supporting our growing business in Southeast Asia. These investments validate our commitment to supporting clients in their digital transformation journey.”

PCCW Solutions is expanding across Southeast Asia with presence in Singapore, Malaysia, the Philippines and Indonesia, creating value for its clients with local expertise, regional resources and international best practices.
